Re: Notice of File Closure for Small Mining Activities, U-Dig Fossils, S/027/052, Millard County, Utah

Dear Mr. Crapo:

This letter is to notify you that file #S/027/052, for the U-Dig Fossils project, located in Section 2, T17S, R13W County, Utah, will be closed and retired from our files. It has been determined that no mechanized mining activity has been performed by you on this lease, therefore, a mining permit is not required from our office at this time.

In checking with the School and Institutional Trust Lands Administration (SITLA), we have been informed that you hold the mineral lease on this property until the year 2030. If you plan to conduct any future mechanized mining activities in this area, you will need to submit a new notice of intention to SITLA and also receive our approval before beginning any such activities.

If you have any questions or concerns regarding this action, please notify us within 15 days from your receipt of this letter.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
